EXPERIENCE

Software Engineer
CRStrip

🗓 10/2023   📍 Dubai, United Arab Emirates

- Architected a scalable, domain-driven infrastructure in Golang, accelerating development speed by 20% and fortifying product reliability, driving a 10% boost in sales
- Revamped product quality, catalyzing a 10% increase in sales through engineered system reliability improvements, slashing downtime by 15%
- Orchestrated Docker and Kubernetes deployment infrastructure, revolutionizing system scalability and reducing deployment time by 30%
- Mentored team members in Docker and Kubernetes best practices, spearheading deployment process improvements that yielded a 40% error reduction

Software Engineer
Research Center for Developing Advanced Technologies (RCDAT)

🗓 06/2022 - 09/2023   📍 Tehran, Iran

- Developed and optimized services and sub-services for a microservice-based employee management platform using Nest.js and Typescript, orchestrating seamless data workflows for 20+ organizations
- Implemented Elasticsearch integration, slashing query response times by 35% and dramatically elevating user satisfaction
- Pioneered CI/CD pipelines from the ground up for three teams, reducing development cycles by 30% and accelerating feature delivery

Backend Developer
Mizan Gostaran Sharif

🗓 01/2021 - 01/2022   📍 Tehran, Iran

- Developed and launched a sophisticated employment platform featuring a targeted recommender system; facilitated precise matches between job seeker qualifications and employer criteria while supporting more than 1,000 concurrent users
- Optimized MongoDB database architecture, managing complex data relationships for 500+ job seekers and 200+ employers
- Spearheaded comprehensive testing infrastructure development, reducing system errors by 20% and strengthening project stability
- Revolutionized legacy codebase, enabling 20 new feature implementations and driving a 15% sales increase within the first quarter

Mobile Application Developer
Ubim

🗓 09/2019 - 10/2020   📍 Kermanshah, Iran

- Architected and launched a cross-platform mobile application using Flutter, driving a 25% surge in customer engagement
- Propelled user acquisition to 1,500 users during the acceleration phase, achieving a 20% monthly growth rate
- Partnered with UI/UX designers to craft an intuitive interface, resulting in 25% enhanced customer satisfaction scores

Junior Mobile Application Developer
Behpouya

🗓 04/2017 - 03/2019   📍 Kermanshah, Iran

- Designed and implemented a fully functional eBay-style e-commerce platform, collaborating with UI/UX teams to create user-centric design solutions that garnered positive feedback from 90% of initial testers
- Configured migration to Flutter, implementing sophisticated animations and modern UI/UX elements, resulting in 40% increased user engagement

EDUCATION

Bachelor's Degree in Computer Systems Architecture
Kermanshah University of Technology (KUT)

🗓 09/2016 - 08/2020   📍 Kermanshah, Iran

Diploma Mathematics
National Organization for Development of Exceptional Talents

🗓 09/2012 - 08/2016   📍 Kermanshah, Iran

SUMMARY

Software Engineer leveraging 6+ years designing and developing scalable microservices, monolithic applications, and enterprise-level systems using Golang, Node.js (Nest.js and Express.js). Consistently delivered 20-35% performance improvements through system optimization with PostgreSQL, MongoDB, and Elasticsearch.

KEY ACHIEVEMENTS

🎯 **Enhanced Deployment Efficiency**
Boosted deployment speed by 30% via Kubernetes orchestration.

🎯 **Improved Product Quality**
Increased system reliability, cutting downtime by 15%.

🎯 **Accelerated Development Speed**
Improved sales by 10% by optimizing infrastructure.

🎯 **Streamlined Feature Delivery**
Reduced development cycle by 30% through CI/CD pipelines.
